Starter Generators | StarterGenerator.com®

The purpose of a starter generator is to crank the aircraft engine or APU system up to a specified RPM to start the aircraft. Once a specified RPM is reached, it then switches from the starting process to the generating process. The generator then provides power through a voltage control unit to the battery and other aircraft components.

Aircraft Starter Generator | Aircraft Accessories

The Hucks starter (invented by Bentfield Hucks during WWI) is a mechanical replacement for the ground crew. Based on a vehicle chassis the device uses a clutch driven shaft to turn the propeller, disengaging as the engine starts. A Hucks starter is used regularly at the Shuttleworth Collection for starting period aircraft.. Pull cord
