### The Best Computer Monitors for 2020 | PCMag

So after over 2 months of waiting, I finally received my super cool Mac Pro. (12-core, 64GB Ram, AMD FirePro D700 etc.). I connected it to a crappy 21-inch DVI monitor I had laying around while setting it up, with plans to move it over to my 30-inch (DVI) Apple Cinema display once all my apps and plug-ins were up and running smoothly.
