A carburetor (American English) or carburettor (British English) is a device that mixes air and fuel for internal combustion engines in the proper air–fuel ratio for combustion. It is sometimes colloquially shortened to carb in the UK and North America or carby in Australia. To carburate or carburet (and thus carburation or carburation, respectively) means to mix the air and fuel or to equip ...

Chrysler Carburetor Parts Catalog - Carburetor kits, parts ...

A carburetor is essentially a tube that controls the air and gasoline flowing into an engine. A 2-stroke or double barrel carburetor works the same way that a basic carburetor works, except that more air and gasoline can be pushed into the engine because there are more barrels or tubes and thus, more airflow.
