SEI is an employee-owned business and technology management consulting firm. We implement tailored solutions and drive mission-critical projects for clients. Since fitting the new spectrum evolution and DSMX satellites my antenna fades during a fifteen miute flight has gone from around 50/60 to 400 plus. the satellite placement is the same as before. My previous install was the powerbox evolution and Spektrum DMS2 AR9000 receiver.

Evolution Spectrum - Evolution - PowerBox-Systems | Support

The PowerBox Evolution Spektrum has been developed specifically for Spektrum pilots, and represents a combination of the proven PowerBox Evolution with a Spektrum nine-channel receiver in one compact device. All you need is three Spektrum DSMX satellites (not included) in order to obtain a completely redundant receiver and battery system..

Powerbox Evolution Spektrum - dreamworksrc.com

The Powerbox-Systems Evolution has been for many years one of the most well known and most used powerboxes in large scale models. The advantage that the Evolution always had was that being the first in the range or powerboxes, its cost is kept down yet still implementing most of the functions used by its top of the range counterparts.
