Introduction To Metaphysics Martin Heidegger
Introduction to Metaphysics (German: Einführung in die Metaphysik) is a 1953 book by the philosopher Martin Heidegger. The work is a revised and edited lecture course Heidegger gave in the summer of 1935 at the University of Freiburg. Heidegger suggested the work relates to the unwritten "second half" of his 1927 magnum opus Being and Time.

Introduction to Metaphysics (Heidegger book) - **Wikipedia**
In this book, Heidegger answers the question "why are there entities instead of nothing" in four aspects: The Fundamental Question of metaphysics, Grammar and Etymology, the Question of the Essence of being and finally, the Restrictions of Being.

Amazon.com: Introduction to Metaphysics, 2nd Edition ...
Martin Heidegger (1889-1976) was a German philosopher whose work is perhaps most readily associated with phenomenology and existentialism, although his thinking should be identified as part of such philosophical movements only with extreme care and qualification.

Introduction to Metaphysics by Martin Heidegger
In the English-speaking world, the importance of Introduction to Metaphysics was in part established by the fact that in 1959 it became the first book-length work by Heidegger to be translated into English, three years before a translation of Being and Time itself appeared. 2 In effect, the Introduction to
