Engine Problem

On MyE28, a few people got less HP than expected from Metric Mechanic and a flame war is generated any time someone asks, so I didn't. A nice feature I've discussed with Metric Mechanic is a route to get an engine kit from him. Like Korman, Metric Mechanic has been in business since the late 70s.

Both engines are virtually identical except for their stroke. The 2200 FI Engine has an 84mm Stroke whereas the 2300 has an 87mm stroke making it the most powerful M10 engine we offer. To avoid any confusion, Metric Mechanic does not sell the Boost System itself or provide the Tuner. We build the engines that can take it.

Engine Problem

When the check engine light comes on, there is always at least one DTC, or Diagnostic Trouble Code, that gets recorded. Your mechanic will look at the DTC (s) and then give you a repair estimate based on that. Even if they tell you what the name of the DTC is, it's very likely it won't mean anything to you.
