### What Customers Want Using Outcome

Which is to say, customer value comes from a supplier's ability to fulfill a specific, relevant outcome in the buyer's work or life. In What Customers Want, author Anthony Ulwick crisply captures this idea, expressing it as the capability to "Get a job done better" and "Get more jobs done".

### What Customers Want: Using Outcome-Driven Innovation to ...

To help overcome this tendency Ulwick defines three specific types of information that would be useful: (1) jobs—what customers are trying to get done; (2) outcomes—the metrics used by the customer to define the successful execution of a specific job (p. 2); and (3) constraints—what might prevent customers from adopting or using the new product or service.

### What Customers Want: Using Outcome-Driven Innovation to ...

In What Customers Want, Ulwick demonstrates that all popular qualitative research methods yield well-intentioned but unfitting and dreadfully misleading information that serves to derail the innovation process. Rather than accepting customer inputs such as "needs," "benefits," "specifications," and "solutions," Ulwick argues that researchers should silence the literal "voice of the customer" and focus on the "metrics that customers use to measure success when executing the jobs, tasks or ...

Customers use a 1-to-10 scale to quantify the importance of each desired outcome and the degree to which it is currently satisfied. The rankings are inserted into the formula to form the overall innovation opportunity score that highlights the outcomes with the highest "importance" scores and lowest "satisfaction" scores.
